PO Box 1275, Whistler BC, V0N 1B0 | T 604 905 4075 F 604 905 4073 | www.seatoskyorthopaedics.com

Dear Patient:

At Sea to Sky Orthopaedics it is our mission to provide our community with a well-rounded approach to orthopaedic health. We have been working hard to build a strong network that will create opportunities to provide exceptional and balanced care.

Helping patients in the Sea to Sky Corridor is a priority for us and increasing our capacity to fix bones “at home” is part of our mission. Funding for “fixing bones” in Squamish is a critical and an ongoing issue. We have worked tirelessly to gain surgical time, fast access clinic time and needed equipment. We are proud of the gains we have made, , but we have yet to reach our goal of having a comprehensive local orthopaedic program at Squamish General Hospital that serves patients throughout the Sea to Sky Corridor..

The benefits of “at home” care for a patient such as yourself are reduced travel time, preserved financial resources, improved mental health and increased leisure time. If you are concerned about your access to orthopaedic care in the Sea to Sky Corridor, please find attached a list of contacts. You can be a part of developing an orthopaedic program in your community by writing or contacting your representatives and notifying them of your wishes.

Thank you for your concern.

Sea to Sky Orthopaedics
